Charming Northampton Gem - Just over 1,300 Sq Ft of One-Level Living! Welcome home to this beautifully maintained residence nestled in the sought-after Northampton neighborhood in the city of St. Louis! Offering just over 1,300 square feet of single-level living, this home combines classic charm with thoughtful updates throughout. Step inside and be greeted by the spacious formal dining room, featuring a stunning coffered ceiling, dual ceiling fans, and warm bamboo flooring-a perfect setting for gatherings and entertaining. The kitchen is equally impressive with gray cabinetry, stainless steel appliances, and durable slate tile flooring. The large family room offers an inviting retreat, with abundant natural light, recessed lighting, neutral carpeting, and French doors leading to the expansive patio-ideal for outdoor dining or relaxing evenings. Originally a three-bedroom home, two rooms were combined to create a spacious primary suite with a sitting area, walk-in closet, and full en suite bath. A second bedroom and second full bath are conveniently located off the hallway. The laundry/pantry area just off the kitchen adds extra functionality and storage space. Additional highlights include a one-car detached garage with opener and extra concrete pad (perfect for a future shed or hobby space). Newer entry door/steeled glass (2019), newer furnace and water heater, and a roof replaced around 2000. Exterior
